Cosmo: unit volume is flat, revenue is down, and peak now rests on two new listings

Sales are down 8.8% year to date while Smartwatches grew 15% over the last 12 months. The gap opened after May, as conversion and price fell, and SE and Pro now carry peak with 99 reviews between them.

Oct sales $143k, -32% YoY · Jan-Oct sales -8.8%, units +0.7% · Smartwatches +15% (12 months) · SE + Pro: 99 reviews

1. Overall

OBSERVATION

Jan-Oct sales are $3.16M vs $3.47M (-8.8%) on 34,417 units vs 34,173 (+0.7%). Jan-May grew 50%; Jun-Oct fell 27% ($2.66M to $1.95M). October closed at $143k, -32% on sessions -33%, with conversion at 3.1% vs 3.6%.

DIAGNOSIS

A brand problem, not a demand problem: the subcategory grew 15% and "kids smart watch" searches rose 59% in October. Jun-Aug lost conversion (5.1% to 4.1%) and price ($100 to $91). Since September, sessions also fell as "cosmo watch" searches dropped and JT5 sold through.

Recommendations for every section are grouped at the end of this document.

2. Scorecard

Share of what is already in place in each area, from market data. In place counts fully, partial counts half, not yet counts zero.

Organic search visibility

Check	Status	What we found
Head-term demand where the brand ranks top 20	Partial	10 of 15 head terms, 58% of their 267,586 monthly searches. Only 2 are confirmed live on SE and Pro; the other 8 come from JT5 history, and JT5 is selling out.
Emerging head terms covered	In place	3 head terms up 25%+ year over year; brand outside the top 20 on 0.
Dependence on brand searches	In place	Brand terms are 8% of the demand the brand ranks for (13,607 searches/month, -38% YoY vs generic head terms -2%).

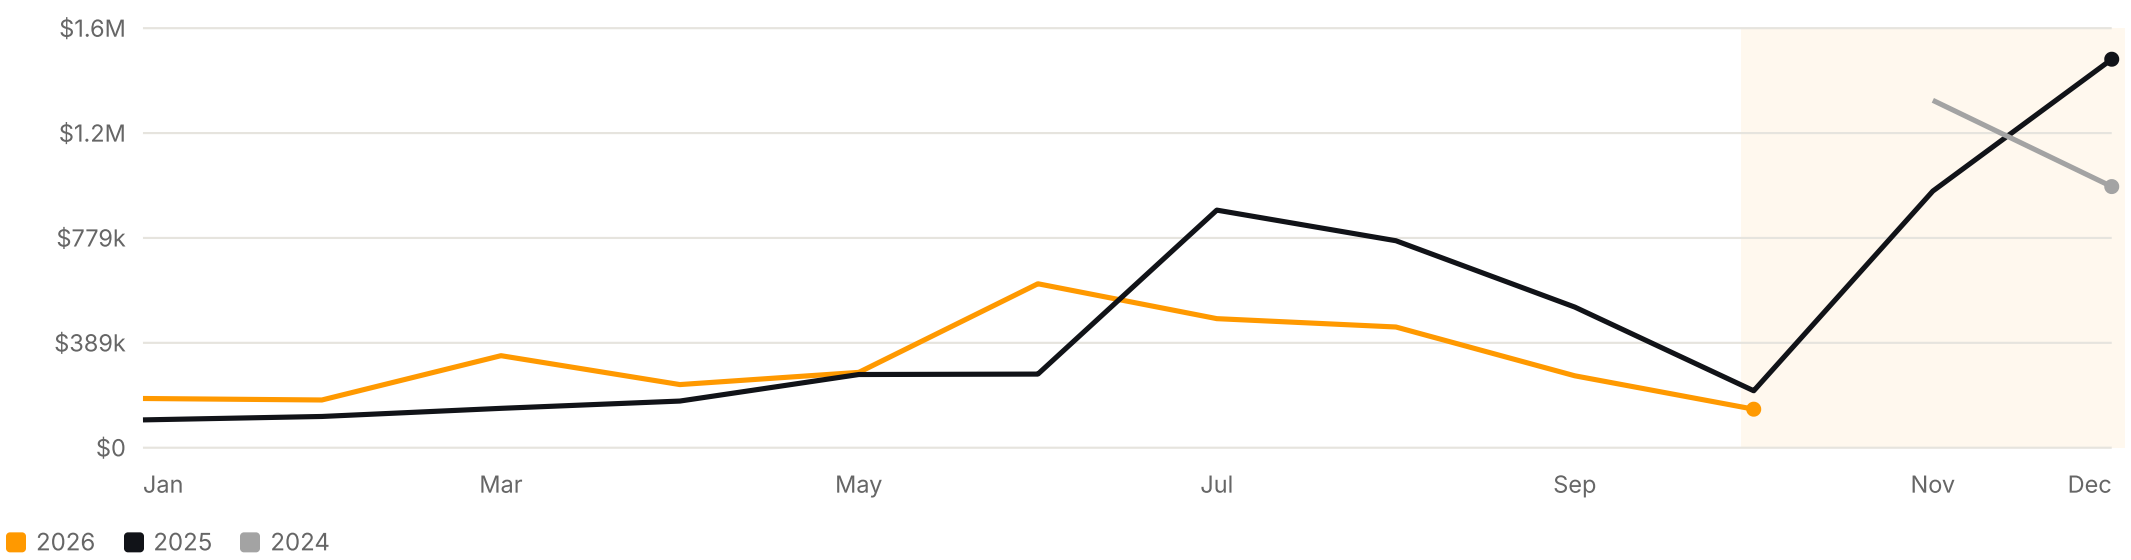

Catalog & channel control

Check	Status	What we found
Brand wins the buy box on top ASINs	In place	Cosmo is the only seller. SE and Pro sit above 99%; JT5 fell to 77% in October because it sold out, not because of a reseller.
Reseller count on top ASINs	In place	One seller on every top ASIN.
Revenue concentration	In place	Top ASIN is 42% of brand revenue in this subcategory.

OBSERVATION

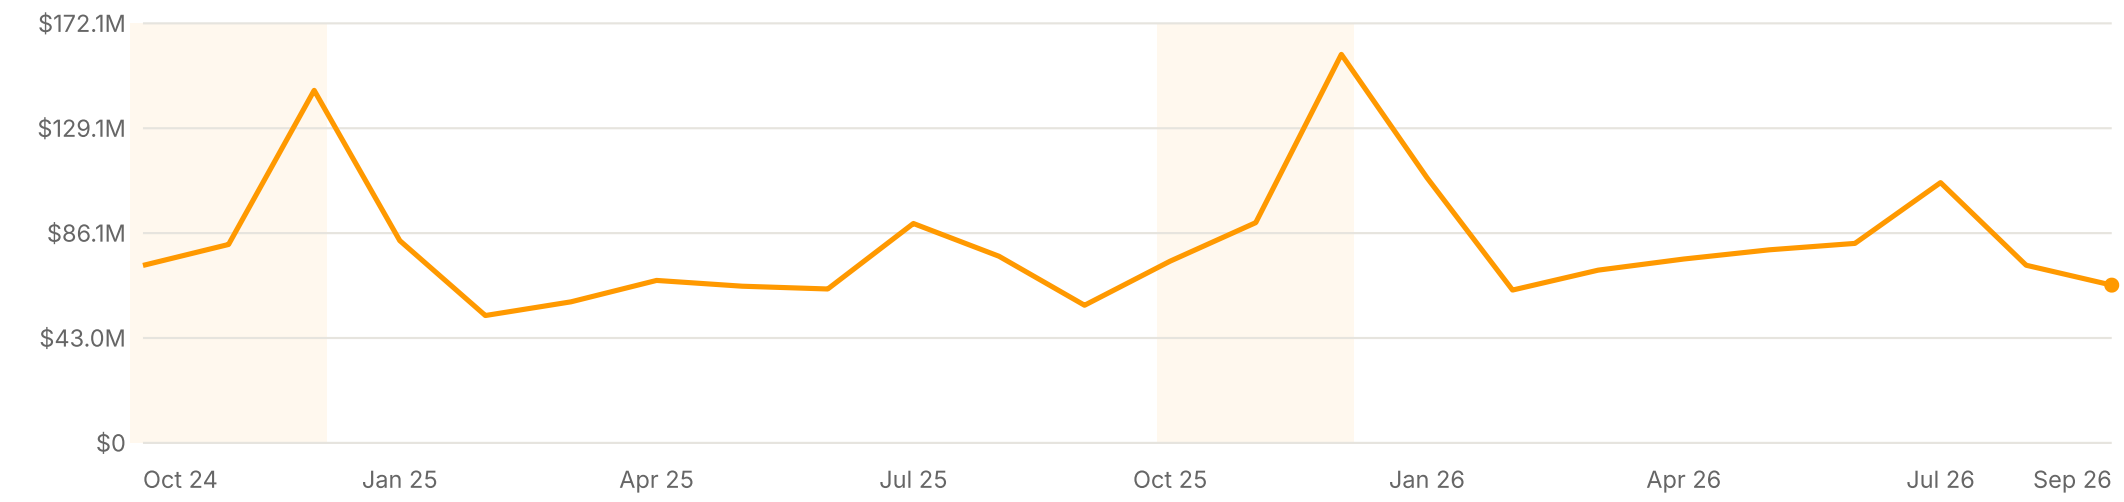

Jun-Aug sales fell 20% ($1.92M to $1.54M) with sessions +8%. Sep-Oct fell 44% ($733k to $410k) with sessions -31%. October average price rose to $114 from $98 while units fell 42%.

DIAGNOSIS

Two different problems. Jun-Aug is conversion and price: more visits, fewer units per visit, at lower prices. Sep-Oct is traffic: "cosmo watch" searches fell 38% in October while the higher-priced SE and Pro replaced the $99.99 JT5.

4. The category: Smartwatches

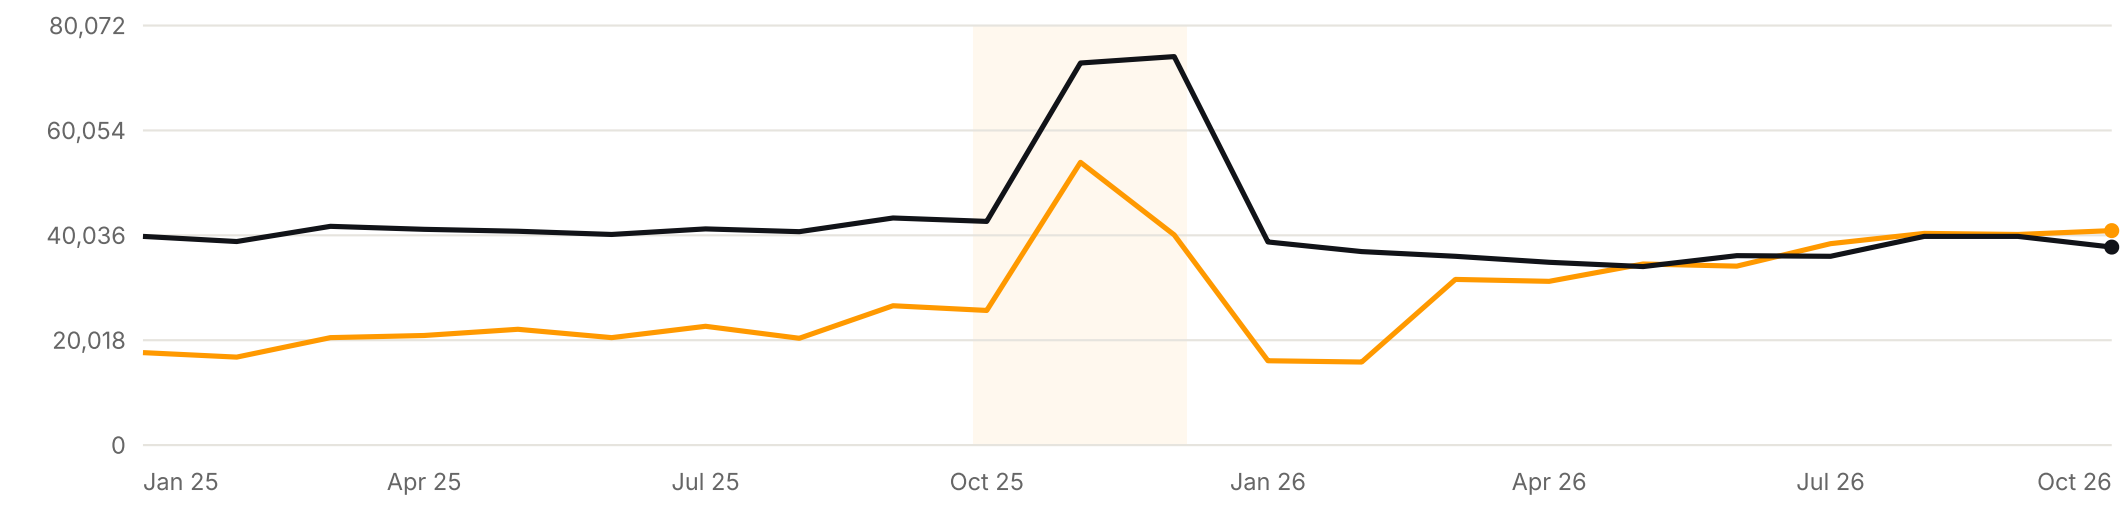

Oct-Dec shaded. Oct 2024 to Sep 2026. This node includes adult watches; Apple and Garmin hold 68%, and Amazon has no kids-only node, so brand and search rows below show the kids market.

OBSERVATION

Smartwatches grew 15% to $1.05B over 12 months while JrTrack fell 2% and TickTalk grew 6%. JrTrack stays the largest kids cellular brand over 12 months ($5.6M vs $4.5M), but TickTalk leads the latest month ($340k vs $251k).

DIAGNOSIS

The category is not the constraint: the lead term "kids smart watch" is up 59% and "smart watch for kids" is down 12%, so demand is shifting wording rather than leaving. The lead over TickTalk is exposed while SE and Pro build reviews.

OBSERVATION

SE matches the $129.99 peer median but rates 3.9 vs 4.05, with 77 reviews vs a peer median of 1,217. Pro has 22 reviews at 4.3. On the two lead terms, SE is the first organic result; Pro is second on "kids smart watch" and fifth among organic results on "smart watch for kids".

DIAGNOSIS

Ranking moved to the new listings faster than trust did. 1,905 JT5 reviews stay behind because each model launches as a new listing. Battery is the top SE complaint, in 28% of negative reviews (8 of 29), while TickTalk 6 launched at 4.6 and $169.99.

6. Who sells Cosmo on Amazon (buy box)

COSMO Technologies is the only seller on all three watches. October is session-weighted.

Model	Seller	Price	Fulfillment	Buy box Oct	Buy box Nov 1-3	Other sellers
JrTrack 5 SE	COSMO Technologies	$129.99	FBA	99.5%	99.3%	0
JrTrack Pro	COSMO Technologies	$179.99	FBA	99.7%	99.7%	0

OBSERVATION

Account buy box fell to 91.3% in October from 99.3% in September. JT5 buy box dropped from 99% on Oct 5 to 6% on Oct 7 and has stayed below 63% since.

DIAGNOSIS

No reseller is involved. JT5 is out of fulfillable stock, with 1 unit showing on the live page, so 473 JT5 sessions on Nov 1-3 produced 4 units.

7. Models and pricing

Single-unit products, so the comparison is by model. Amazon prices live on Nov 5.

OBSERVATION

List prices match across channels at $129.99 and $179.99. Last year sold 34,712 units in Nov-Dec at $68-70, about half the SE list price.

DIAGNOSIS

The website offer is stronger than Amazon at the same price. Peak depends on what deal price lands: last year's December conversion of 7.6% was earned at about $68.

8. Inventory and stock cover

FBA position on Nov 5. Units per day: SE October average; Pro Nov 1-3 average. Total includes reserved and inbound. Stock held outside FBA is not visible here.

OBSERVATION

DIAGNOSIS

SE and Pro total 25,240 units against about 33,100 watch units left in Cosmo's 34,253 Q4 Amazon plan, or 76%. Days of cover look long only because today's rate is pre-peak.

Current rate does not describe peak: last year sold 34,712 units in Nov-Dec. Without inbound beyond what FBA shows, the plan runs about 7,800 units short before year end.

9. Website, off-Amazon traffic and lifetime value

Plan value is plan price plus the $14.99 activation fee (estimate at list price). It is not a reported lifetime value, and Amazon sales do not include it.

Item	Website	Amazon
Models sold	Pro, SE, accessories	Pro, SE, JT5 (selling out), accessories
Offer	2 free gifts, over $50 in accessories	No promotion seen
Rating shown	4.8 (2,200+ reviews)	3.9 SE, 4.3 Pro, 3.6 JT5
Link to the other channel	SE page links to Amazon; Pro page has no Amazon link	Not applicable
Warranty and returns	3-year warranty, 30-day money back	Not checked
Monthly plan	$19.99 per month	Activated in the Cosmo app
1-year prepaid value per watch	$170.87 ($155.88 + $14.99)	Same, after purchase
2-year prepaid value per watch	$254.75 ($239.76 + $14.99)	Same, after purchase

Source: brand website; live Amazon pages

Read

OBSERVATION

Each watch needs a Cosmo Mobile plan, so a 1-year prepaid buyer adds $170.87, about the price of the watch itself. The site shows 4.8 stars; a shopper it sends to Amazon sees 3.9 on SE.

DIAGNOSIS

Amazon sales understate what each unit is worth, because plan revenue sits off Amazon. Traffic sent from the site and off-Amazon ads meets a lower rating and a weaker offer at the point of conversion.

10. Recommendations

High **Reviews on SE and Pro**

OBSERVATION

SE has 77 reviews at 3.9 and Pro 22 at 4.3, against a peer median of 1,217. JT5 keeps 1,905.

DIAGNOSIS

Each model launches as a new listing, so review history restarts, and peak traffic lands on the thinnest pages.

RECOMMENDATION

Enroll Pro in Amazon Vine while it sits under 30 reviews, and run a neutral post-activation review request for SE and Pro from the Cosmo app. Set a review target before each future launch.

High **Peak price and conversion**

OBSERVATION

October conversion was 3.1% at $114 average price. Last year reached 7.6% in December at about $68.

DIAGNOSIS

SE lists at about twice last year's peak price and Pro at about 2.6 times, and Pro has no conversion history at a deal price.

RECOMMENDATION

Lead peak deals with SE as the volume model and hold Pro as the step-up. Share the promotion calendar with XP before it locks, so unit targets match the price that will run.

High **Battery and connectivity**

OBSERVATION

Battery appears in 28% of SE negative reviews (8 of 29). On JT5, connectivity appears in 16% and battery in 11%.

DIAGNOSIS

The same complaints carry over between models and hold ratings below TickTalk 6 at 4.6.

RECOMMENDATION

Route these themes to product and support. State 18-24 hour typical battery plainly on SE, and confirm the Pro "up to 48 hrs" claim before it goes on the listing.

Medium **Peak stock**

OBSERVATION

SE and Pro total 25,240 FBA units vs about 33,100 left in the Q4 plan.

DIAGNOSIS

FBA shows a 7,800-unit gap, and 4,104 Pro units are still in working status.

RECOMMENDATION

Confirm stock held outside FBA and inbound dates for SE and Pro, and move Pro working units into shipment.

Medium **Offer parity**

OBSERVATION

The website adds free gifts and over $50 in accessories at the same watch price. Amazon shows no promotion.

DIAGNOSIS

Amazon is the main conversion channel, yet it carries the weaker offer.

RECOMMENDATION

Mirror the offer on Amazon with a virtual bundle or free-gift promotion for SE and Pro, and add the Amazon link to the Pro page.

Medium **JT5 close-out**

OBSERVATION	DIAGNOSIS	RECOMMENDATION
JT5 has no fulfillable stock and drew 473 sessions on Nov 1-3 for 4 units.	Remaining visits land on a listing that cannot convert.	Point JT5 detail-page content and Brand Store modules to SE and Pro, and update all off-Amazon links that still reference JT5.

Medium **Organic search**

OBSERVATION	DIAGNOSIS	RECOMMENDATION
SE and Pro hold the top organic slots on the two lead terms, but SE averages #11 on "gps watch for kids" and #12 on "kids smartwatch with gps tracking".	JT5 ranked #1-4 on many long-tail GPS and calling terms, and that history leaves with it.	Add the exact phrases "smart watch for kids" and "gps watch for kids" to SE and Pro titles or backend terms. Review ranks on the top 15 terms once JT5 stops selling.

Low **Brand demand**

OBSERVATION	DIAGNOSIS	RECOMMENDATION
"cosmo watch" searches fell 38% in October to 2,813 from 4,537.	Model-specific searches for JT5 are fading and SE and Pro have not replaced them: "cosmo jr track 5" is down 82%.	Use "Cosmo watch" in off-Amazon creative as the master brand, so demand carries from model to model.
