Data notes

- AMC sees about 71–79% of Seller Central orders each month, mostly shoppers reached by Sponsored Ads. Rates and trends are reliable; raw counts are understated.
- Sponsored Ads only: no DSP data is connected for this account.
- Rows under ~100 shoppers are withheld by AMC. They stay in totals and are never attributed.
- Subscribe & Save subscribers who signed up before Oct 2025 appear as repeat buyers, so SnS figures are a floor.
- Repeat history starts at the lookback date, so early months have a shorter purchase history than later months; part of the rise in repeat share over the year comes from that longer window.
- Spend per NTB order uses all Sponsored Ads spend and ranks months; it is not an isolated acquisition cost.
