1. Overall

OBSERVATION

Seller Central sales $5.94M from Nov 2025 to Oct 2026 vs $7.07M a year earlier (-16%); units -16%, sessions -20%. Jun-Aug 2026 (Prime Day window: June 2026 vs July 2025) $1.34M vs $1.85M (-28%); Sep-Oct $850k vs $1.21M (-30%) on sessions -41%. Unit session % rose from 35.1% to 36.8% over the 12 months and reached 46.1% in October; buy box 93-97% every month. The five subcategories behind the top sellers grew 19% (Nov-Sep, estimates) while Nutrivein's estimated revenue in them was flat (+1%), so share fell from 0.36% to 0.21% of the five (last 3 months vs a year earlier).

DIAGNOSIS

The decline is Nutrivein's, not the market's, and it is a traffic loss on pages that convert better than ever. Three drivers, in order: (1) Berberine sessions fell 77% (13,884 in Nov 2024 to 3,245 in Oct 2026) as a reseller took 20-37% of the buy box and search moved to "berberine supplement", "berberine with ceylon cinnamon" and gummies; (2) Vitamin C sessions fell 38% from the May 2025 peak because the listing ranks for "liposomal" terms (60,804 searches) but not for "vitamin c" (398,328) or "vitamin c 1000mg" (64,743); (3) the two growth items with rising demand, Tart Cherry (+60% to +295% search growth) and Mushroom, are not tracked on their head terms. Stock is the near-term risk: Vitamin C has 9 days and Resveratrol 5.5 days on hand.

OBSERVATION

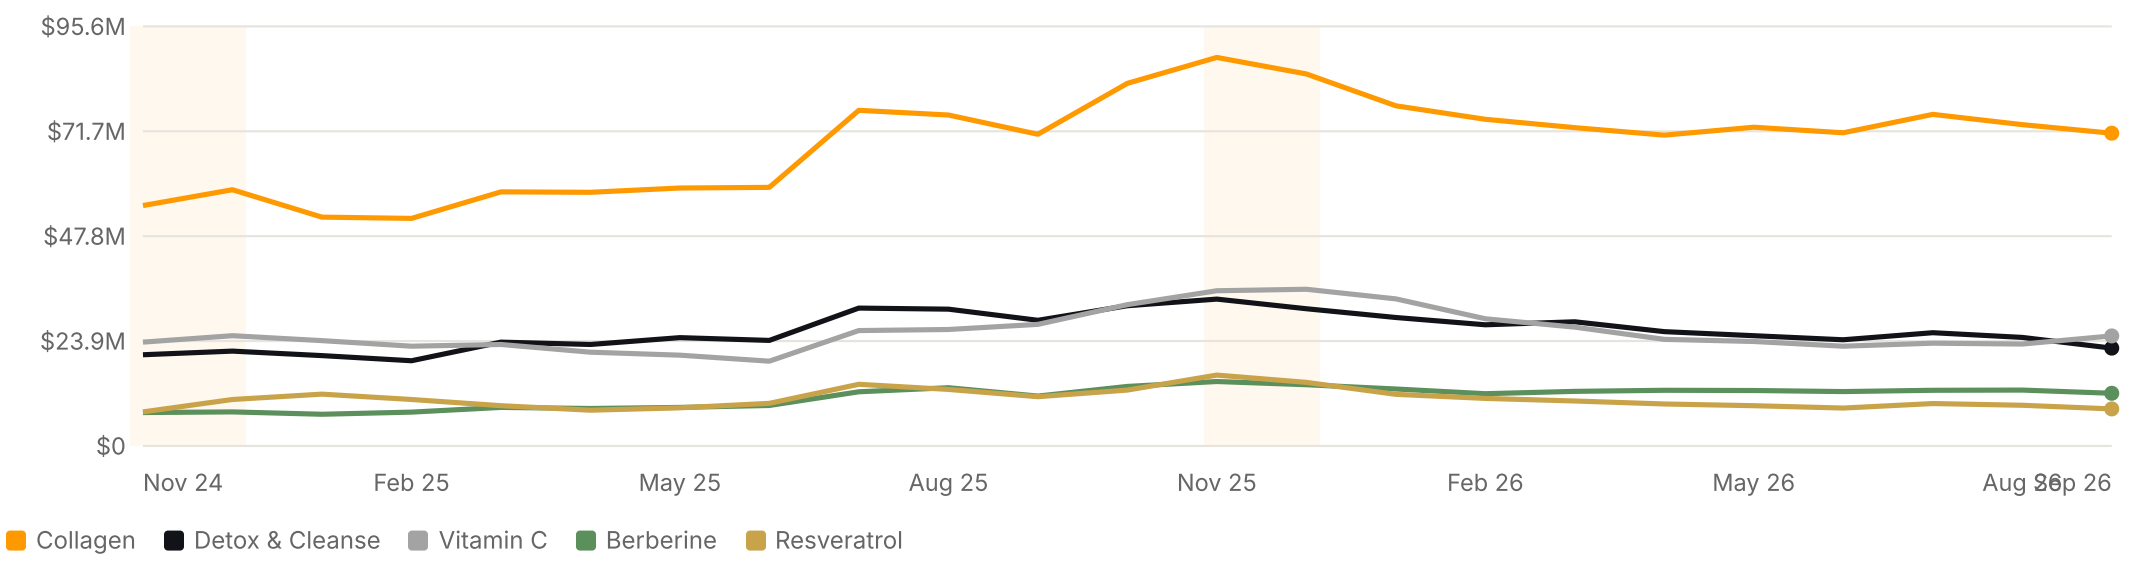

Every month since December 2025 is below the year before; the gap widened from -16% in Feb-Apr to -28% in Jun-Aug and -30% in Sep-Oct. Sessions fell from 90,884 (May 2025) to 41,614 (Sep 2026) and 45,150 (Oct 2026). Unit session % moved the other way: 36.0% in May 2025, 45.6% in Sep 2026, 46.1% in Oct 2026. Average price stayed at $20.6-21.0.

DIAGNOSIS

Fewer shoppers reach the pages; those who arrive buy more often, helped by a growing repeat and subscription base (repeat buyers 27% to 42% of sales in Amazon Marketing Cloud, Jan to Sep 2026). The problem is upstream of the page: search visibility on head terms and one shared listing.

4. The category: five supplement subcategories

Monthly revenue of the five subcategories the top products sit in: Vitamin C Supplements (Liposomal Vitamin C), Berberine, Detox & Cleanse (Apple Cider Vinegar), Resveratrol and Collagen Supplements. They hold 82% of the top-10 sales in Seller Central. DIM, Glutathione and Sea Moss sit in the broad Blended Vitamin & Mineral node, Tart Cherry in Fruit Extract and Mushroom in Mushrooms Herbal; those are left out of the total. Nov 2024 to Sep 2026; Nov-Dec shaded.

OBSERVATION

Nov 2025-Sep 2026 vs a year earlier: Berberine +38%, Collagen +24%, Vitamin C +16%, Detox & Cleanse +11%, Resveratrol +3%; the five together +19% ($1.69B). Jun-Sep 2026 slowed: Vitamin C -5%, Detox -16%, Resveratrol -25%, Berberine +8%. Search demand rose on "vitamin c" (+9%), "berberine" (+7%), "berberine with ceylon cinnamon" (+15%), "berberine gummies" (+342%), "tart cherry capsules" (+60%) and "tart cherry extract" (+295%); it fell on "resveratrol" (-42%), "sea moss capsules" (-25%) and "apple cider vinegar capsules" (-16%).

DIAGNOSIS

Berberine is the clearest brand problem: the subcategory grew 38% while Nutrivein's estimated revenue in it fell 22% and its share more than halved. Vitamin C share fell from 0.82% to 0.48% in a growing subcategory. Resveratrol and ACV demand is falling at the market level, so flat or modest declines there are in line with the category.

OBSERVATION

Nutrivein is the lowest price per capsule among liposomal vitamin C peers ($0.117 vs $0.222 for Dr. Mercola) and at parity in berberine ($0.225 vs $0.233 for NutriFlair, $0.208 for Nutricost). Vitamin C carries 22,694 ratings at 4.7, more than every peer except Nature Made and Emergen-C. Live search: organic #1 on "liposomal vitamin c", "berberine" and "apple cider vinegar capsules"; absent from the first 16 results on "vitamin c" and "berberine supplement". NutriFlair ($580k a month) ranks organic #2-3 on both berberine terms with the same 1200mg + Ceylon cinnamon formula.

DIAGNOSIS

Price, rating and review depth are not the gap. Nutrivein wins the narrow term each product is named for and loses the broad terms where most of the volume and the growth sit.

OBSERVATION

Nine of the top ten listings have one seller (Nutrivein, FBA) and a 97-99% buy box. Berberine has two FBA sellers: Seller Central buy box 77.8% over 60 days and 63-80% every month since Dec 2025 (98-99% from Jul to Oct 2025). Third-party data credits The Supplement Guy with 59% at $26.50 vs Nutrivein at $26.99.

DIAGNOSIS

The buy box loss is confined to Berberine, but it is the second-largest product and the one with the steepest session decline. A $0.49 undercut is enough to take most of the box.

OBSERVATION

Website and Amazon prices match on every top-10 product. Amazon offers 2-pack sizes on ACV, Resveratrol and DIM. The website sells 18 two-product bundles at about 10% below two single bottles; none of them exist on Amazon.

DIAGNOSIS

Pricing is consistent across channels; the bundle range is the format gap. Cross-ingredient bundles (ACV + Berberine, Berberine + Resveratrol) are category growth headroom on Amazon, not a pricing fix.

OBSERVATION

Account: 43,965 fulfillable units and 18,888 inbound. Vitamin C: 1,983 units against 6,500 sold in 30 days (9 days), 11,452 inbound. Resveratrol: 261 units against 1,413 (5.5 days), 2,500 inbound. Glutathione holds 172 days and DIM 99 days.

DIAGNOSIS

The two items with the most Subscribe & Save deliveries due (Vitamin C 1,581 and Resveratrol 928 in 30 days) are the two closest to running out; a gap before check-in hits subscribers first.

OBSERVATION

Content is consistent across the range: 89-93% of checks in place, every page with a subtitle, 5 long bullets, A+ with 18-19 images and a comparison chart, Brand Story, 7-9 images and 2-4 videos. Search is the weak area (0-75%): titles run 61-75 characters and leave out the head terms. Two copy errors: "Types I, II, II, V, X" (Collagen) and "Capsule Serings" (DIM).

DIAGNOSIS

Listings are complete; they are written for brand and ingredient-specific terms rather than the generic terms that carry volume.

OBSERVATION

The website runs the same prices, a 10% subscription with Wellness Rewards points, free US shipping, a 30-day money-back guarantee and 18 bundles. Third-party data tracks only 6 Amazon searches a month for "nutrivein", so off-Amazon brand demand reaching Amazon is minimal.

DIAGNOSIS

Amazon sales depend on generic search, not brand search; the website's bundle range and loyalty offer are the main assets not yet used on Amazon.

11. Subscribe & Save base and lifetime value

Active subscriptions per SKU, Nov 9, 2026 (current state only; monthly history is not available). Value = deliveries due in the next 30 days x subscription price (list less 10%), an estimate, not a reported lifetime value. The ceiling assumes every subscription ships monthly.

Measure	Value
Active subscriptions (all SKUs)	19,460
Deliveries due in the next 30 days	7,135 units
Monthly value, deliveries due x subscription price	$145k (33% of October sales)
Ceiling, active subscriptions x subscription price (if all monthly)	$391k
S&S share of sales (Amazon Marketing Cloud)	8.6% Jan 2026 to 11.4% Sep 2026
S&S sign-ups (Amazon Marketing Cloud)	759 to 838 a month (Jan to Sep 2026)
Discount	10% seller-funded on every eligible SKU
Top subscribed SKUs	Vitamin C 5,751; Berberine 3,757; Resveratrol 1,477; DIM 1,350; ACV 1,145; Collagen 1,097

OBSERVATION

19,460 active subscriptions across 25 eligible offers; Vitamin C 5,751, Berberine 3,757, Resveratrol 1,477, DIM 1,350, ACV 1,145, Collagen 1,097. 7,135 deliveries are due in 30 days, worth about $145k at subscription price, 33% of October sales. Amazon Marketing Cloud shows S&S rising from 8.6% to 11.4% of sales and repeat buyers from 27% to 42% (Jan to Sep 2026).

DIAGNOSIS

The subscriber base is the account's most stable revenue and explains the rising conversion. It also concentrates risk: Resveratrol (928 deliveries due) has 261 units on hand, and Berberine subscribers are exposed while a reseller shares the listing.

12. Recommendations

High **Inventory**

OBSERVATION	DIAGNOSIS	RECOMMENDATION
Vitamin C: 1,983 fulfillable units, 6,500 sold in 30 days, 11,452 inbound. Resveratrol: 261 units, 1,413 sold, 2,500 inbound; 2,509 subscriber deliveries due on the two in 30 days.	9 and 5.5 days of cover on the #1 product (41% of 60-day sales) and on a product split across two parents.	Expedite check-in of both inbound shipments and hold reserve stock for subscriber deliveries; set a 45-day reorder point on Vitamin C.

High **Buy box**

OBSERVATION	DIAGNOSIS	RECOMMENDATION
Berberine buy box 63-80% every month since Dec 2025; The Supplement Guy at $26.50 FBA holds 59% in third-party data.	A reseller undercutting by $0.49 on the brand's second-largest product while its sessions fell 77%.	Trace the reseller's supply, enforce MAP or file a Brand Registry report, and price-match at $26.49 until the offer is gone.

High **Organic search**

OBSERVATION	DIAGNOSIS	RECOMMENDATION
"vitamin c" 398,328 searches a month (+9%) and "vitamin c 1000mg" 64,743: no Nutrivein listing in the first 16 results; "berberine supplement" 143,620: ad only.	Titles of 61-75 characters are built on "liposomal" and "premium"; the head terms with the volume are not in them.	Retitle the top two: "Nutrivein Liposomal Vitamin C 1650mg, High Absorption Vitamin C 1000mg+ Capsules, 180 Vegan Caps" and "Nutrivein Berberine Supplement 1200mg with Ceylon Cinnamon, Berberine HCl, 120 Caps"; support both head terms with exact-match ads until organic rank reaches page 1.

High **Category growth**

OBSERVATION	DIAGNOSIS	RECOMMENDATION
"tart cherry capsules" 56,762/mo (+60%) and "tart cherry extract" 43,038/mo (+295%) not tracked for Tart Cherry, which converts 56% and grew 51%; "berberine gummies" 62,899/mo (+342%) with no gummy in the range.	The fastest-growing demand in the range has no Nutrivein listing on it.	Lead the Tart Cherry title with "Tart Cherry Extract Capsules" and add exact-match ads; evaluate a berberine gummy line.

Medium **Listing**

OBSERVATION	DIAGNOSIS	RECOMMENDATION
Collagen subtitle "Types I, II, II, V, X"; DIM title "120 Capsule Serings"; Resveratrol child under two parents.	Copy errors on the first lines shoppers read and a split variation family.	Fix both typos and merge Resveratrol under one parent.

Medium **Pack sizes**

OBSERVATION	DIAGNOSIS	RECOMMENDATION
18 two-product bundles on the website at about 10% off; none on Amazon. AMC: repeat buyers 42% of sales in Sep 2026.	Bundles fit the repeat-buying base and add new entry points into growing subcategories.	List the top 3 website bundles on Amazon as virtual bundles (ACV + Berberine, Berberine + Resveratrol, Resveratrol + DIM).

Medium **Subscribe & Save**

OBSERVATION	DIAGNOSIS	RECOMMENDATION
19,460 subscriptions; S&S 11.4% of sales and 838 sign-ups a month (AMC, Sep 2026); Glutathione is the only top-10 listing without the 10% coupon.	The subscription base carries conversion; new sign-ups grew 10% Jan-Sep while new-to-brand orders fell from 4,212 (Mar) to 2,579 (Sep).	Keep the 10% S&S discount on every top-10 SKU and use the new-to-brand audience in AMC to retarget first-time buyers of Vitamin C with S&S messaging.
